Product information

Zitzi Flipper G2 is an indoor underframe in three sizes for up to 130 kg maximum load weight.
The Zitzi Flipper G2 gives the user the opportunity to vary the seat height (chassis height) from a low 28 cm up to 71 cm.
It is available with several different accessories such as direction-locked wheels, frame extension, footrests and driving bows.
Zitzi Flipper G2 has a tilt option of 0° to 30° or -5° to 25° depending on mounting options.
The chassis can be selected with manual or electric height / tilt adjustment.
See also technical data for more information.
