ARIEL

The new bathroom seat available in 3 sizes for children and teenagers from 1 to 16 years.

Ariel provides excellent support and stability, allows caregivers to perform all tasks safely and offers great comfort to children who have difficulty maintaining a sitting position or balance.

Complete Ariel with the base, equipped with 4 smooth wheels

		SIZE 1	SIZE 2	SIZE 3

BASE (optional)				
Upper length	Cm	112	115	117.5
Width	Cm	49.8	49.8	49.8
Height	Cm	43	43	43

Lightweight and stable

A very light frame, high quality materials, a simple and compact design make Ariel the perfect support during daily operations.

On request it is possible to add the base, equipped with 4 sliding wheels with brakes that allow you to easily move the seat into any environment.

Folding

In just a few moves it is possible to effortlessly adjust all sectors of the frame to obtain the most correct positioning.

Ariel can be completely flattened to position the seat inside the tub and allow the child to engage in play activities during the bath, promoting muscle development, improving motor skills and sensory perception.

When necessary, the frame can be folded down and closed completely in just a few steps, to take up minimal space when stored.

Maximum containment at all levels!

Head · Chest · Legs · Feet

High quality materials – Easy customization in a few moves – Simple to fold and store in very little space

Support for every area

The seat offers containment and support belts in every part of the body:

- soft and adjustable headrest,
- belt for chest, legs and feet, quick to attach and adjust,
- leg rest adjustable in 5 different positions,
- customizable backrest with 5 different settings of inclination, up to 90°.
